

## Studies for Chapter 6, Part 2

Mandatory reading: Chapter 6.4; pages 226-256

Please prepare answers to the questions F6.x, and present it in the group meeting. Don't read preformulated sentences in the meeting, but free speech is preferred instead. Of course you can note some keywords and use it for better remembrance. Clarifying the answers by applying them on an example is very helpful.

This week, a short presentation over a selected process model per student will take place, too (XP, Waterfall, SCRUM, V-Model).

<b>Group 1</b> Michael Cichon Lisa-Marie Schäfer	<b>Group 2</b> Frank Tiemann Dominic Wanrooij	<b>Group 3</b> Jan Steffen Florian Wiegemann	<b>Group 4</b>	<b>Remarks</b>
F 6.25	F 6.26	F 6.27	F6.28	
F6.31	F6.34	F6.35	F6.36	
A 6.10	A 6.11	A 6.12	A 6.13	Written Homework
A 6.21	A 6.22	A 6.23	A 6.24	Written Homework

The answers to the assignments A6.y have to be submitted via email latest until that Sunday following the week in which the questions and answers have been discussed during the meeting. The assignments will probably need more work, that's why there are only two assignments per student this week.

Answers (eventually updated) to the questions and to the assignments have afterwards to be uploaded to N@tschool, too.
